OBJECT

Working as a React and Node developer, contributing and delivering agile and consistent solutions to demands.

RESUME

I'm a Christian, father, musician, mechanical and work safety engineer, and Front End Developer, looking to become Full Stack. I am looking for an opportunity to **completely migrate** to the development area.

I maintain a constant study routine, building new projects and following the trails of React, React Native and Node from Ignite, Rocketseat.

I like to study and practice **English**, and currently I consider myself at an **advanced level** (I watch series, documentaries, read books), and I speak **French** at a beginner level.

PROFESSIONAL EXPERIENCE

- **Frontend Developer | 7x Technology | Jan/2023 to date:**

- Improvement in systems, on demand; correcting and updating existing functionality; minor bug fixes on the front-end; code versioning.

Technologies used: React.Js, Javascript, Git, Github, Styled-components, Axios

- **Occupational Safety Technician | Energisa Paraíba | Apr/2019 to date:**

- Field inspections, accident investigation, training, indicator management.

ACADEMIC QUALIFICATION

- Ignite - Developer React.JS, Node.Js, React Native | 2023 | Rocketseat;
- Occupational Safety Engineer | Dec/2022 | Unopar College;
- Mechanical Engineer | Aug / 2021 | Pitagoras College;

SKILLS

- | | | | |
|----------------|---------------------|-----------|-------------------|
| - JavaScript | - Vite | - Zod | - Phosphor-react |
| - TypeScript | - Styled-components | - Prisma | - React-hook-form |
| - Node.Js | - Git | - Fastify | - SQL |
| - React.Js | - Github | - Radix | - Nest.Js |
| - React Native | - Postgres | - ESLint | - Knex |

AREAS OF INTEREST

- Hobby: music (guitar, acoustic guitar and double bass);
- Languages: English and French;
- Reading: technology, business, personal development;
- Family: quality time, travel.
